

Birding by Ear Workshop with John Neville

Leader: John Neville

Date: Thursday, May 12th 9 am – 12 pm

Location: The first 90 minutes or so will be in the Soroptimist Room at the Filberg Centre. John will then lead you on a short walk to a nearby. No cars will be required. Most of the walk is easy and Wheel Chair Accessible.

Maximum Participants: 30 delegates

What to Expect:

Being able to recognize birds by their songs and calls is an added pleasure in the great outdoors. Birds over the fence, hidden in a tree, hidden in the marsh or calling at night add greatly to our pleasure. Especially, if we can put a name to them.

John will give you examples of typical songs and calls in a classroom setting, and then take you for an easy walk to listen and look for local birds. The workshop lasts from 9-12 and you are welcome to bring books and binoculars. The first part of the Workshop is Wheel chair friendly, but unfortunately, the field trip is unlikely to be.
